

ADARSH KUMAR

Web Developer and Software Developer
Greater Noida, Uttar Pradesh, India - 201310

📞 +91-7209798901 ✉️ adarshku.official@gmail.com 📱 adarsh0707-kumar 💼 Adarsh-kumar-657315251

Summary

Data Science and Full-Stack Web Developer proficient in Python, Machine Learning, and modern web technologies including React.js, Node.js, and Tableau. Passionate about building data-driven applications and interactive dashboards to solve real-world problems.

Skills

Programming & Languages: Python, JavaScript, TypeScript, SQL, C, C++

Frontend & Mobile: HTML, CSS, Bootstrap, TailwindCSS, ReactJS, NextJS

Backend & Frameworks: NodeJS, ExpressJS

Databases: PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Tableau, Power BI, Postman, Jupyter Notebook, Linux, VS Code

System Programming: GTK, Drools, IPC, Multithreading, Process Management

Education

ITS Engineering College

B.Tech – Computer Science & Engineering

Noida, India

2022 – 2026

Gopal Shah High School

12th – BSEB

Motihari, India

2022

Arya Vidhyapith Laxmipur Shanker Sharayi East Champaran

10th – CBSE

Motihari, India

2020

Internship Experience

Satyam Software Solution

Jan 2026 – Apr 2026

Software Development Intern | Project: DS24 – FlexCom Module

- Developed the **FlexCom** module within the DS24 project, implementing multi-process and multi-threaded architecture for high-performance concurrent communication.
- Implemented Inter-Process Communication (IPC) mechanisms – **Message Queues, Shared Memory, Pipes, and Sockets** – with synchronization using mutexes, semaphores, and condition variables.
- Wrote low-level system programming code in **C/C++**, applying memory management and object-oriented design principles in a production-grade codebase.
- Worked with the **Drools** rule engine for business logic automation and decision management.

Projects

MediBil Pro | Medical Billing & Pharmacy Management System

Aug 2026 – Sep 2026

- Built a full-stack, multi-tenant medical billing platform for pharmacies using **React, TypeScript, Node/Express**, and **PostgreSQL** with Prisma, containerized with Docker.
- Implemented POS billing with GST calculation, batch-level inventory with expiry tracking, and role-based access for Admin, Pharmacist, and Cashier.
- Designed multi-shop architecture isolating each pharmacy's data via JWT-derived shop IDs, secured with HttpOnly refresh cookies and CSRF protection.
- Deployed frontend on Vercel and backend on Render. GitHub: adarsh0707-kumar/medical-billing

Data Visualization Dashboards with Tableau

Sep 2025

- Students Performance Dashboard:** Designed an interactive Tableau dashboard to analyze academic performance; utilized calculated fields and filters to explore correlations between demographics and test scores.
- Electric Vehicle & Titanic Dashboards:** Created two dashboards to visualize EV adoption trends and perform exploratory data analysis on Titanic passenger survival rates.
- GitHub: Ds_training-ITS | Data-Science

Seminars / Trainings / Workshops

- AI and ML training program (01/Apr – 18/Apr/2025), ITS Engineering College, Noida.
- Data Science & Machine Learning Training Programme by RCPL (01/Sep – 19/Sep/2025).

Certifications

- Software Development Internship** – Satyam Software Solutions Pvt. Ltd. (Apr 2026)
- Data Science with Python** – RCPL in collaboration with ITS Engineering College (May 2026)
- SkillCourse Certifications (2026):** Python, SQL, Power BI, Microsoft Excel (Beginner to Advanced).

Languages & Interests

Languages: English, Hindi

Interests: Data Science, Web Development, Reading, Traveling.
